

Emergency–HEAP (E-HEAP) Fact Sheet

Emergency HEAP is designed to assist low-income households with their energy needs. This includes providing financial assistance to those who are threatened with disconnection of utilities, have already had service disconnected, or who have less than a ten-day supply of bulk fuel.

There are two programs to Emergency HEAP the Winter Crisis Program and the Summer Crisis Program. Each program has its own set of specific guidelines for assistance. There is also the Regular HEAP program which is administered from the Ohio Department of Development and runs from July 1st-March 31st. You can apply online by searching www.energyhelp.ohio.gov for regular HEAP applications and PIPP reverifications. If you are needing assistance with a disconnect or need to enroll in PIPP you must come to your local HEAP office to apply.

The Winter Crisis Program can assist those who qualify for a one-time benefit of up to \$900.00 for fuel oil, \$900.00 for propane and \$550.00 for wood, coal and corn pellets. A one-time payment of up to \$175.00 for eligible customers facing a disconnection or have had their services disconnected with their regulated utility company is also available. For unregulated utility companies such as City of Lebanon (electric only) up to \$750.00. Enrollment for various payment programs with a regulated utility such as Duke and Dayton Power & Light are a requirement for those receiving assistance.

Winter Crisis Program begins November 1st and ends March 31st. The Summer Crisis Program (SCP) starts July 1st. For information regarding Emergency HEAP for WCP and SCP please contact us at **513-970-6737** or schedule an appointment online at <https://wccs.itfrontdesk.com>
