

BABY TIP PROGRAM

The Warren County Baby TIP Program is now accepting referrals through Children Services.

TIP is a collaboratively funded program between **Warren County Community Services Early Head Start**, **Warren County Children Services**, & **Butler Behavioral Health**. Baby TIP is designed to serve Early Head Start eligible infants and toddlers who have experienced trauma. Children and their families will receive supportive & integrated developmental services and family systems interventions in the home. The goals are to increase family skill building to support children's healthy social and emotional wellbeing, and to create a strong foundation for school readiness for children effected by trauma.

Year-round
trauma-informed
Early Head Start
services in
home-based or
center-based options

Early Childhood
mental health
treatment and family
system interventions
